

Briefing form: *G2 Infographic (multi-page)*

Product code: "INFOG-M"

Welcome to the G2 Multi-Page Infographic design process. We're excited that you have elected to engage your audience by turning G2's reviews and report data into visually engaging, data-driven content for your marketing campaigns.

This fillable PDF form is designed to capture all of the information we need from you to create content for you, tailored to reflect your brand's unique identity and tone.

This form is to be used for **multi-page infographics** including G2 data from **multiple G2 categories/segments**. If instead you need to submit a request including G2 data from a **single G2 report or multiple G2 reports from the same category/segment**, please complete the **single-page infographic form**.

What you'll need to complete this request form

Preparing as much as possible of the following information and material in advance will make sure we can begin the production process quickly!

G2 reports, data & reviews

What G2 reports do you want to highlight?
Which data points & reviews really show off your product's capabilities, and/or best fit with a campaign you're planning?
What stories do you want to tell with your data?

Campaign messaging

Prepare any copy that you want to include in the multi-page infographic. Remember that copywriting is not included as part of the G2 Multi-Page Infographic Content Service.

Brand guides

Ideally you'll have a company brand guide (PDF or online resource) to share with us, including logos, fonts, color palettes, visual styles & examples, etc.

The more we understand your product's brand, the more your brand/design team love the final results!

[Connect with your internal brand/design team to collect these resources in advance.](#)

Platform, format, size

Think about where this multi-page infographic will be published, and what format works best for your audience.

Any other guidance

We really need your help to deliver designs that truly represent your brand, effectively support your story and really nail your campaign goals. For the best results, don't hold back!

1. About you

* Required fields

First name*:

Surname*:

Email*:

Your work email address.

Preferred communication method*:

☐

Slack

☐

Email

Through the production process we'll use this communication method to discuss the project, provide updates and send delivery notifications.

Our preferred method is Slack where we would create a dedicated channel for your product. Other members of your team can be invited to participate.

Your G2 contact person:

If you have a regular contact person at G2 for previous content requests, please let us know who that is.

G2.com Product link*:

Your website link to your product*:

Social media link(s) for your product*:

Visit your product page on G2.com and provide the link in the following format:

g2.com/products/your-product-name

Each request submission must be for a single product. If you need an infographic created for more than one product, please complete a separate request submission for each product.

Tell us more about your product:
(enter links or text)

The more we understand about your product, the better.

Please provide any product introduction or recent product campaign material you might have that will provide us with further insights.

You can also securely upload PDFs [here](#)

2. Your multi-page infographic format

* Required fields

Which visual design approach should we use?*

Branded ad example links*:

Illustration is only possible if you have your own defined illustration style and vector files you can share with us to use. Custom illustration work is not included with the service.

Branded ad example should be:

- Created with your branding
- In the same visual design approach preference indicated above
- Please provide at least 2 examples.

Brand Guide & Materials*:

If your brand guide and materials are available online, enter the link (or links) here.

If links are access-controlled, please provide a username & password for us to use.

You can also securely upload brand assets [here](#)

Use design approach from another G2 asset:

If the multi-page infographic design should follow a previously created G2 Social Ad or Infographic, enter the SAC/ASAC/INFOG Job & Ad number, or image link here.

If you have submitted another asset request for this current G2 Report Season, and you'd like us to follow the design direction from that asset, you can provide the Job number, or image link here.

Multi-Page Infographic size*:

☐

US Letter (tall)

☐

US Letter (wide)

☐

Custom

Our default page format for multi-page infographics is US Letter either in Portrait/tall or Landscape/wide orientation..

If 'custom', what size?:

To request an alternative size, please choose the 'Custom' option and provide us with the required size.

Branded example links*:

You can also securely upload ad examples [here](#)

To make sure we understand the brand direction you want us to follow, we need to see some examples of your infographics or social assets. These should be:

- Created with your branding
- In the same visual design approach preference indicated above on this form.

Please provide at least 2 examples.

Do you intend to use the infographic as a Document Ad?

☐

No

☐

Yes

Let us know if you intend to use the Infographic also as a Document Ad, to be displayed in a carousel as a downloadable PDF.

Note: If you plan to use the PDF as a Document Ad, it's best to include less content per page & use larger fonts to give a better mobile experience.

3. Cover Page

What do I need to know about G2 Multi-Page Infographic?

Here are some headline points to bear in mind when planning your G2 Multi-Page Infographic:

Number of assets: The standard Infographic service is intended for one product and includes 1 asset consisting of up to 7 separate individual pages (cover page + TOC page + data content pages + last page).

Messaging and Data: As well as G2 data content, you will be asked to provide marketing copy to be used on the cover page (if included) and in the header and footer of each page of the infographic, including CTA button(s).

- All G2 data content requested, can be from multiple G2 Reports and segments.
- Data requests from any additional G2 Reports, live data, or external (non-G2) data points cannot be included in a standard infographic.
- A single Grid® may be included on each page from the single G2 Report on which your Infographic page is based.
- You can include up to 7 data points, any data points, per G2 Report.
- Competitive or category average data can also be included, with a maximum of 3 named competitors.
- You can choose how to represent data points, e.g. as bars, rings, typographically (tables), or a mix of all three.
- You can include up to 5 review quotes from your product's G2 profile page, per G2 Report.
- We recommend trimming longer quotes to the most essential part(s) to maximize the impact of the copy. Changes to review quotes are only allowed if they are to trim or correct spelling or grammar errors. Changes should in no way alter the intent of the review.
- If you have been awarded a G2 badge in the G2 Report, you can choose to include that.
- Badges can be either generic or category-specific where the badge design includes the name of the G2 Report category.
- We suggest that you consider the story that you want your messaging to get across and choose the data that best supports that story. Our best-practice recommendations include:
 - Limit the number of data points to effectively focus on what matters most.
 - Choose data points that are connected rather than disparate.
 - Data points are great, but customer reviews lend validation to the story.

Design style: Multi-Page Infographics can be created with either a photographic or illustrated design approach:

- You can provide your own photography, or we will provide stock images for each page. Be sure to let us know in the request form if you will be providing your own images.
- It is not within the scope of the service to create new illustrations for your brand, but rather to apply/adapt your existing illustration. You must provide source illustration files for us to use.
- If we must include specific illustrations, please provide these in vector format (e.g. .svg, .ai, .eps or .pdf), not in bitmap format (e.g. .png or .jpg).
- If your preferred illustration style cannot be described by providing examples, we would recommend choosing a photographic or plain style option instead.
- Since design direction changes cannot be made after design draft production has begun, it is important to be as specific as possible about your visual style requirements when completing this section of the briefing form.

Sizes: The standard delivery format is PDF, US Letter 612 px wide 792 px tall, RGB for digital use. The custom format can be provided if requested.

Final deliverables: G2 Multi-Page Infographics are delivered as standard in .pdf format as well as raw .ai working files. Additional .png or .svg formats may also be requested on the order form.

Updates: The G2 Multi-Page Infographic package includes quarterly updates which can be requested when the latest G2 Reports are released.

Alignment with your brand: G2 will always endeavour to provide finished assets that align closely with your brand. To do this well, we need your help. Please be as generous as possible regarding the following items in the briefing process:

- Brand guidelines, especially regarding your brand illustration approach (if required).
- Existing infographic design examples reflecting your current brand guidelines.
- Anything else that will help us better understand your campaign goals. Nothing is too insignificant, the better we understand, the better the final results!

Logos: Logos should be provided in vector format (e.g. .svg, .ai, .eps or .pdf), not in bitmap format (e.g. .png or .jpg).

Service terms (continued)

Fonts: We have access to fonts from Adobe and Google. If your primary font is not available from either of those sources, you will need to provide your font for us to use, or indicate a secondary font that is available to us.

Rebranding: If the product is currently undergoing a rebrand, and the multi-page infographic design should follow the new branding, then please delay submitting the service request until the new branding material is available to share. Requests to apply updated branding to designs after the design process has begun can not be facilitated.

G2 Brand Guidelines: Any G2 brand elements or likeness must follow the guidelines outlined in G2's Brand Resources.

Prohibited Content: We reserve the right to decline to participate in creating content that does not comply with G2's Community Guidelines and general Terms of Use, where applicable.

How do quarterly updates work?

Updates can be requested when the latest G2 Reports are released (quarterly), throughout the 1-year subscription term.

Scope of updates:

The Multi-Page Infographic Update service includes updates to the following, provided they are included in the original Infographic design:

- The Grid® image
- Badge(s)
- Data points
- Review quotes*
- Marketing copy & CTA button copy
- Footer details

*Any replacement review quote should be approximately the same length as, or shorter than, the review quote it is replacing. Review quotes that are no longer live must be removed for privacy reasons. Star ratings that have changed since the original infographic must be updated.
